

City-Stratified Stochastic: PEP Efficacy Analysis

Empirically Derived from AIDSVu Surveillance Data (2023)

VL distributions grounded in Perelson et al., Science 1996

A. City-Stratified PEP Efficacy
at City-Specific Structural Delay

B. Structural Delay vs. PEP Efficacy
(bubble size = IDU prevalence %)

C. Joint VL Burden × Structural Delay
Risk Surface

D. Actual vs. Counterfactual (24h) PEP Efficacy
By City
